HISTORICAL SKETCH.

The American Missionary Association began a school in Talladega twenty-one years ago. In 1867 a large and stately building erected for college use in 1852-3 was purchased, with several acres of land, and a primary school opened that Autumn with more than 100 pupils in attendance. The building is called Swayne Hall, in honor of General Wager Swayne of the Freedmen's Bureau by whom the purchase was made. In 1868 a church was organized, and in 1869 the corner stone of a girls' hall accommodating also the boarding department, was laid, and the building named after Rev. L. Foster, of Blue Island, Ill., a principal donor. In 1873 by the gift of Mr. R. R. Graves, of Morristown, N. J., a two story wooden house and six acres of valuable land was secured for the Theological Department. Winsted Farm of 160 acres, less than a mile from the college buildings, was bought in 1877, mainly by Connecticut donors, and last year the Newton Farm of 67 acres was added. Stone Hall, for the use of young men, built in 1881, is the gift of Mrs. Valeria G. Stone, of Malden, Mass. The same year, the other brick Halls, Swayne and Foster, were thoroughly repaired, a new house was built for the President, and the following year two other houses—one the gift of Mr. Seth Wadhams, of Chicago—were secured, and are occupied by instructors. In 1883, by the contribution of Mr. J. H. Cassedy, of Thiels, N. Y., a two-story school-house was erected for Primary and Intermediate pupils, which was enlarged by a second contribution of Mr. Cassedy in 1887. In 1884, through aid from the "John F. Slater Fund," a commodious shop was built, so that now, besides two school buildings, a hall for young women, another for young men, and four dwellings for teachers, the College has in lands, barns and shops, valuable appliances for teaching industry.

The College is Christian and evangelical, though not sectarian. It is not a "Reform School," and none but the worthy are tolerated. It aims at thoroughness, and seeks to cultivate the hand, the head, and the heart. The following courses of study are now established. Additions will be made as the occasion arises.

COURSES OF STUDY.

The work of the College from necessity began with the fundamental branches, and while the higher studies have been added, the preliminary instruction has never been given more thoroughly than now. By the enlargement of the Cassedy School, new facilities are afforded for Primary and Intermediate students. This school is also the Model School, and is under competent and experienced teachers. Grammar pupils have room in Swayne Hall. The preliminary course of eight years is as follows:

PRIMARY COURSE.

FIRST GRADE.

READING—Reading Charts, First Reader.

NUMBERS—Count, Read and Write Numbers to 100. Add, Subtract, Multiply, and Divide with 1's, 2's, and 3's. Use of signs.

POLITICAL ECONOMY—Half a year.

CHURCH HISTORY—The Christian Church, Ancient, Mediæval and Modern, one year.

HOMILETICS—one year.

Notes.—Sermonizing and Pastoral Theology, with Voice Culture, throughout the entire Course.

Lectures before the Department will be delivered monthly by Pastors from different sections of the State.

Persons graduated from this Course receive the degree of "Bachelor of Divinity."

While it is desirable that students of this department pursue its entire Course of Study, nevertheless, at the discretion of the Faculty, a modified course may be pursued, entitling the student to a certificate, but not to a degree.

Tuition and the use of the Library are free.

Most of the students in this Course perform mission work in the surrounding country, for which they receive a small compensation, thus enabling them to continue their studies without becoming involved in debt. During the present year the "Macedonian Missionary Society" has been organized.

Candidates for admission to this department must furnish satisfactory evidence of good moral character and of such scholarship as will enable them successfully to pursue the prescribed studies.

INDUSTRIAL DEPARTMENT.

Manual labor has here had place from the beginning, and with the growth of the College new facilities for industrial training have been added. Instruction is now given both to young men and women in varied kinds of handicraft. The object is twofold:—

First—To give practical instruction in the best methods of doing work.

Second—To enable students of limited means to pay a

part of their expenses in labor, thus developing in them a spirit of self-reliance. While the College will not *make* work merely for the purpose of giving employments to students, it will furnish all the labor it consistently can. Early application will be necessary to secure aid. *In no case should any one come, hoping to receive such aid, unless such person has applied for it and received a favorable answer.* Attention to this statement may save time, trouble and disappointment. Applicants should state the degree of advancement in their studies, their necessities and *the amount they can promptly pay.* In no case will industrial students be allowed to run behind in their accounts.

Faithfulness, promptness and efficiency in the performance of labor will be exacted from each one.

It is earnestly hoped that all will come prepared to pay as much as possible, in order that they may have the more time to devote to study and self-improvement.

AGRICULTURAL DEPARTMENT.

Winsted Farm contains one hundred and sixty acres; lying about one-half mile from the College buildings. By the gift of a friend a tract of sixty-seven acres, connecting this farm with the College, has recently been secured. There are also about forty acres adjacent to the buildings, used partly for gardening purposes.

The proceeds of the farm and garden are sold or used in the Boarding Department, and the Agricultural Department credited accordingly. A few young men secure regular "jobs," for which they are allowed a certain sum monthly. Others work by the hour and *are paid according to the value of the work done.* Young men without money, but desirous of obtaining an education, can usually find employments on the farm until they have earned enough to enable them to go to school a part or all of the year. Several have begun their course here by a few months of farm work. Such have all the privileges of the family, study in the night school; and in this way worthy and industrious persons can secure an education.

MECHANICAL DEPARTMENT.

The Slater Shop under an efficient Superintendent gives

opportunity to those who would become acquainted with carpentry, cabinet making, painting and glazing, and to some extent, with blacksmithing. Classes are formed in this department from pupils in the Normal, Grammar and Intermediate grades, who receive systematic instruction at regular hours. The results already attained are highly satisfactory and it is proposed in the future to increase the facilities for industrial education. A shoe-shop is located in the basement of Stone Hall, where repairing is done. In the same building is the printing office, where most of the College job-work is done and a small paper called OUR WORK is printed.

GIRLS' INDUSTRIAL SCHOOL.

The young ladies are here given instruction in house-keeping, kitchen, dining-room and laundry work; and sewing is made a regular and required part of the course of instruction. Some who desire to pay part of their board bill in work, can make such arrangements by early application. Such will be credited according to the amount of work done. A competent teacher is provided for this department, and an enlargement in this line of work is contemplated.

GENERAL INFORMATION.

MEMBERSHIP.

For membership in the College, applicants must have good moral character, and upon their arrival must present satisfactory testimonials of such character.

Students from other schools must present certificates of honorable dismission.

Application should be made at least one month before the beginning of the school year. No one unable to pay in full, and hoping to secure aid, or to pay in part by labor, should come without previous correspondence and express permission. All should be present at the opening of the school, that they may be immediately classified, and thus lose no time. Students in regular classes lose their membership when absent one month; while *absence without leave* may forfeit the pupil's right to membership in the Institution.

Those who have not a fixed purpose to improve their minds, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

Students are not allowed to come or go on the Sabbath. They must, therefore, plan to avoid all travel on that day.

FOSTER HALL.

TEACHING.

By far the best means of support, as well as of doing good, is found in *teaching*. The demand for teachers properly qualified for this work is usually in excess of the supply; and nearly all of those who are sufficiently advanced in scholarship can aid themselves by teaching.

The Department of Methods and Practice organized three years ago is presided over by a teacher of experience and ability. The members of the Senior class have charge of classes from the Cassedy school and teach daily under the supervision of their critic. It is believed that Talladega affords facilities for the training of teachers, second to none in the South.

County Superintendents of schools, and others desirous of securing teachers from this Institution, will favor their own interests by so arranging the sessions of the public schools as to have them occur during its summer vacation.

Members of this institution who may be considered by their instructors qualified for teaching, will be furnished with certificates stating their qualification and standing. As a means of protection from imposition, applicants for schools, claiming to be from Talladega College, should be required to present such certificate.

MUSIC.

Excellent advantages are offered for study and drill in both Instrumental and Vocal Music. Instruction is given upon the Piano and Cabinet Organ, and in the cultivation of the Voice, Chorus Singing and Notation.

LITERARY SOCIETIES.

The students sustain three literary organizations: the Adelpic and Athenæum for young men, and the Vesperian for young ladies. Besides the training of the Societies, Public Rhetorical Exercises, under the direction of the Faculty, are held once a month in the Chapel, which are attended by students and others.

LIBRARY, APPARATUS, AND READING ROOM.

The Library occupies a fine room in Swayne Hall, and contains about 3,500 volumes. It is increasing in value and

a small sum has been secured for its support. It is accessible to all without cost. The College is in possession of a small philosophical apparatus and a museum. Several hundred valuable specimens, the gift of generous friends, have been recently received.

A Reading Room open to students is found in both Stone and Foster Halls.

PRIZES.

Prizes in the form of Free Tuition are given to students in the Grammar and Normal Departments for excellence in reading and declamation.

ALUMNI MEETING.

By recommendation of a committee appointed the previous year, our Alumni Association was organized at the College Commencement in 1882. This Association has an annual meeting; by reunions and correspondence it seeks to perpetuate acquaintance and strengthen fellowship; and it also nominates some of its number to share under the direction of the Faculty, in the exercises of Commencement.

EXPENSES.

Room rent in the boarding halls is \$1 per month. Each room is intended for two students, and is plainly but neatly furnished. Students will provide their own towels, fuel, lights, soap, etc. Oil and fuel may be purchased from the College as required.

The price of board will vary with the cost of provisions and the expense of preparing the same for the table. The dining room is in Foster Hall, and the bill of fare is arranged by a committee appointed by the students. From \$3.50 to \$4 per month will cover the cost of table board.

Tuition in Primary department, per month,	\$.50
Tuition in Intermediate department, per month,75
Tuition in other departments, per month,	1.00
Instruction in Instrumental Music, with use of instrument, one hour daily, per month,	2.00
Same per term, payable at once in advance,	5.00

The monthly expense for a single student is estimated as follows:

Rent of furnished room	\$1.00	\$1.00
Board	3.50 to	3.75
Tuition50 to	1.00
Fuel15 to	.50
Lights10 to	.25
Washing	1.00 to	1.00

Total, 6.25 to 7.50

Opportunity will be given for girls to do their own washing and ironing.

All needed text-books can be bought at cost at the College, and students should come prepared to get them. They are sold for cash only.

Students will be held responsible for damage done by them to the College property.

All payments are to be made promptly as required. Students who fall behind in their accounts a half month are liable to suspension from recitations until they pay, or make other satisfactory arrangements.

All old accounts must be settled before entering school for another year.

Upon arrival, all students are expected to deposit their money with the Treasurer.

All boarders are required to work for the Institution at least one hour per day. This requirement makes the above low charges possible.

Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express. Make money-orders and drafts payable to the Treasurer, and address all moneys to him. Receipts will be promptly returned.

REGULATIONS.

As it is the aim of the Institution to promote good scholarship and Christian character, the following regulations have been adopted, calculated to secure these results:

Students are not allowed to use intoxicating liquors, or tobacco in any form.

All profanity, playing cards or billiards, and everything tending to immorality of life, are strictly forbidden.

Keeping or using fire arms on the premises is forbidden.

Cleanliness of rooms and person, good order and fidelity to duty are required.

Only plain and simple clothing is to be worn. Expensive dress will not be allowed at Commencement, and parents are requested not to furnish it.

All students from abroad are required to board in the institution unless special permission is given to board elsewhere.

Regular and punctual attendance upon all hours for study and recitation, and upon the established religious exercises of the Institution, is expected; as also entire and cheerful obedience to its regulations, and to the officers of the same.

Students, as far as possible, are taught self control, appeal being made to their own sense of justice and propriety, and their sense of honor—and they *are understood, on entering, to pledge themselves to obey all the regulations of the Institution.*

PUBLIC WORSHIP.

Students are required to attend the following religious exercises: Church service and Sabbath School on the Sabbath, daily prayers at their boarding places, and in the morning at the Chapel. There are other services at which the attendance is optional, though it is earnestly desired, and is very general. These are Temperance and Missionary Societies, Mission Sabbath Schools, Class and General Prayer meetings, and the Young People's Society of Christian Endeavor.

AIMS.

The advantages and privileges of the Institution are offered to all of either sex, without regard to sect, race, color or nationality.

It aims to furnish a thorough education, under the best methods of instruction, in a sufficiently wide range of studies, securing a substantial preparation for professional duties, teaching, or general business.

It aims to secure the best development of social character, by bringing students of both sexes, from various localities, under the same general discipline, occupying separate buildings, yet constituting one family; associating in school and religious exercises, and under the constant oversight of the teachers.

Above all, it claims to be an institution of *Christian* learning. It stands upon the broadest possible basis, and is in no respect *sectarian*.

It is designed to make the Institution, as far as possible, a *home* for those who attend. Parents and guardians may rest assured that any youth placed under the care of the Instructors will be their special charge, and that the rules of good conduct will be at all times enforced.

WANTS.

Without State aid, and relying entirely upon the gifts of the benevolent, the College has need of many things, and these wants may be summarized as follows:

1. Literature. Sunday-school books and papers are in great demand by students who are engaged in teaching. They plant their Sabbath-schools almost as regularly as their day schools, and papers and books, although not new, are a material aid in destitute places.

2. Student aid is a necessity. The charges for board and room are made as small as possible, yet many require some help. This aid is extended only to the worthy, and perhaps there is no surer or quicker way of doing good than by thus helping some promising student into a life of usefulness.

Endowed Scholarships are greatly desired, and something has already been done. Six years ago the Belden Scholarship of one thousand dollars was given by Mr. William Belden, of New York; also two thousand dollars for theological scholarships from the estate of Mr. R. R. Graves. Other theological scholarships of one thousand dollars each have more recently been received from Mrs. Nancy M. Stone, and her daughter, Abbie Stone, of Jefferson, Ohio, Rev. John and Lydia Hawes Wood, of Fitchburg, Mass., and Mr. H. B. Lincoln, of Worcester, Mass. The

sum of \$709.25. from Mr Ephraim A. Brown, of N. Bloomfield, Ohio, has been invested as a general scholarship.

3. Apparatus and Cabinet. The College is in need of additions to its mineralogical cabinet, physical and chemical apparatus, and illustrations for teaching physiology. Such appliances as could be purchased for a few hundred dollars would be of real service in the work of instruction.

4. Library. A few class-mates and College friends of the President have begun an endowment known as the "Yale Library Fund of Talladega College." As yet the fund is small and its increase is earnestly desired.

5. Large sums both for present use and for endowments are needed in the Industrial Department. No instruction among the Freedmen is complete that does not sedulously care for industry. Skilled labor is rare, and the hand as well as the head requires careful training. After moral and hygienic instruction, nothing is more essential than lessons in labor and economy. The College farm needs buildings, implements and fences. The Slater shop, now to be enlarged, should be supplied with additional tools and machinery. A new building is needed for a laundry, and model kitchen.

But industrial training has always been found expensive, and scholarships in aid of this undertaking are earnestly requested. The labor performed by students, though advantageous to them, is not largely remunerative to the college. The farm, shop, kitchen and sewing-room are for the pupil, rather than the pupil for them. Besides money for buildings and utensils, an endowment of twenty-five thousand dollars is desirable to meet the present necessity of industrial pupils.

6. A general endowment for salaries, especially in the College and Theological Departments, has become a necessity. A stable institution must have a constant income. In this a beginning has been made. Twenty thousand dollars has recently been given towards an endowment for the President's salary, and the school, now becoming in fact, as in name, a College, with only small classes at first in the higher studies, ought to have this sum greatly increased. This object is commended for the bequests of those who

cannot give to it while living. The legal name of the corporation is "Talladega College, Talladega, Alabama."

LOCATION.

This school, founded and sustained by the American Missionary Association, is at Talladega, among the Appalachian foot-hills, and has rare advantages in climate and scenery. On the E. T., V. & G., A. & A. and T. & C. V. Railroads, it has easy access to all parts of the State, yet it is far enough removed from the great cotton belt to escape the malaria and more intense heat of that region. The buildings stand on high ground, shaded with trees, and are about half a mile from the village. For beauty of location and healthfulness of climate, Talladega College cannot be surpassed by any institution in the South. The air is pure; water is clear; distant hills, filled with marble and iron are on either side; coal fields are near; and the population of the region is rapidly increasing.

About half the people of Alabama are colored, and by the census of 1880, 80 per cent. of them are illiterate. With a constituency of more than 600,000 to draw from, this is *the only school of collegiate rank and the first boarding school for the Freedmen* of the State. Its fields, its location and its possibilities are all that could be desired. Hitherto its work has not been small; its need and opportunities were never greater than now.

MISCELLANEOUS.

Each pupil should bring a Bible. It is needed for private reading, for Sunday-school, and for the weekly Bible lesson.

All should be provided with *warm* clothing. Young ladies should bring water-proof, rubbers and umbrella.

A long experience has proved that much evil comes from pupils receiving food from home. It is best they should not receive it. *Friends, therefore, will please not send it.*

Pupils should be present on the first day of the school year and continue if possible, to the end. A delay of a few days only, will hinder a student during the entire session.

Students from a distance should arrange their journeys

so as not to arrive on the Sabbath. The College aims to be thoroughly Christian and it reverences the Lord's day.

Letters making inquiry upon any subject connected with the College will be very gladly received and answered. Financial letters should be addressed to

E. C. SILSBY, *Treasurer.*

Letters regarding the Department of Theology to

REV. G. W. ANDREWS, *Instructor in Theology.*

Other letters, to

REV. HENRY S. DEFOREST, *President,*

Talladega College,
