## HISTORICAL SKETCH.

It is now thirty-three years since the American Missionary Association opened the school which has since been chartered as TALLADEGA COLLEGE. A large brick building, which had been erected in 1852-3 for school purposes, costing \$23,000, and standing on a choice, elevated campus, together with about twenty acres of adjacent farm land, was purchased in 1867, and school began that autumn with more than one hundred pupils in attendance. Of necessity they were all in the rudiments of learning, and the future college began as a primary school. The building is called SWAYNE HALL, in honor of General Swayne, who made the purchase, the American Missionary Association and the Freedmen's Bureau together supplying the funds. The Chapel, Library, Museum, President's and Treasurer's Offices, and School and Recitation Rooms, at present, are in this building.

In 1868 a church was organized, and August 7, 1869, the cornerstone of a girls' hall was laid. As a testimony to the generosity of Rev. Lemuel Foster, of Blue Island, Ill., this building, which is of brick and cost about \$22,000, is called FOSTER HALL. It has a choice location and contains parlors, dining-room, kitchen for all boarders, and rooms for about sixty teachers and pupils.

FOSTER HALL.

Theological instruction was begun with a class of six young men, representing three Christian denominations, in 1872, five years from the opening of the school. In the following year a two-story

house and about five acres of land, lying adjacent to the other College property, were bought for the Theological Department. This was the gift of Mr. R. R. Graves, of Morristown, N. J., and is called GRAVES HALL. It contains the Theological Library and Recitation Room, and is also used as a residence for one of the professors.

Winsted farm, of one hundred and sixty acres, less than a mile from the College buildings, was bought in 1877, mainly by Connecticut donors, and named after the town giving the largest amount. The Newton farm, of fifty-seven acres, which connects Winsted with the other College lands and in itself is very desirable property, is the gift of Dr. Homer G. Newton, of Sherburne, N. Y., and was purchased in 1887. Some small additions have been made since, and the real estate of the College is now about 300 acres, much of it valuable, and all of it useful for buildings, gardens, farm, forest or pasturage.

STONE HALL, the third brick building and used as a dormitory for teachers and young men, was built in 1881 from funds furnished by Mrs. Valeria G. Stone, of Malden, Mass. The same year the other brick halls, SWAYNE and FOSTER, were thoroughly repaired; a new house also of brick, was built for the President; and the following year two other houses were secured for the use of instructors, the larger of which, with four acres of land, was the gift of Mr. Seth Wadhams, of Elmhurst, Ill. In 1883, by the contribution of Mr. J. H. Cassedy, of Thiells, N. Y., a two-story school-house was built for Primary and Intermediate pupils, which was enlarged by a second contribution from Mr. Cassedy in 1887. In 1884, by the aid of "The John F. Slater Fund," a shop was built, and enlarged four years later. Ten years ago a laundry, and more recently two other residences for instructors, were built. In 1898 a model barn was erected; so that now the College has two school buildings, a hall for young women, another for young men, six houses for teachers, with shops, printing office and other facilities for industrial teaching. The property of the College, exclusive of endowments, is valued at \$133,266.50.

The College is Christian, though not sectarian. It is without State aid, and its resources at present are from the income of about \$137,500 of invested funds, and the gifts of the benevolent, mainly through the American Missionary Association. It is open to all the worthy, but it is not a reform school, and triflers and those whose influence is deleterious are not tolerated. In all its work, whether industrial, higher or lower, it aims at thoroughness, and is now doing more than ever before in theological and Collegiate studies, giving a substantial and symmetrical Christian education.

## COURSES OF STUDY.

It is designed for those who for want of time or of taste in this direction do not wish to pursue the study of the Bible in the Hebrew and Greek languages. Those who complete this course receive a Diploma.

#### III. THE BIBLE-TRAINING COURSE.

This course has been arranged with special reference to the needs of those who have not had the advantages of school in early life. There are also many ministers who have been preaching for some years, who feel their need of a better knowledge of the Bible. There are many others who prefer a more full and exact knowledge of the Bible to much that is included in other courses. To all these the Bible-training course will prove a great blessing. Nothing will so fit them for their work as a thorough study of the English Bible.

The course of study is as follows:

## DEPARTMENT OF METHODS AND PRACTICE.

The Department of Methods and Practice is presided over by a teacher of experience and ability. The members of the Senior Normal class have charge of classes in the Cassedy School, and teach daily under the supervision of their critic. This work is required of all applicants for diplomas. It is believed that Talladega College affords facilities for the training of teachers second to none in the South.

County Superintendents of Schools, and others desirous of obtaining teachers from this institution, will favor their own interest by so arranging the sessions of the public schools as to have them occur during our summer vacation.

Students of this institution, who by their instructors may be considered qualified for teaching, will be furnished certificates stating their qualifications and standing. As a means of protection from imposition, applicants for schools, claiming to be from Talladega College, should be required to present such certificate.

## DEPARTMENT OF MUSIC.

Excellent advantages are offered for study and drill in both vocal and instrumental music, and a certificate is given to those completing the five years' course.

Singing lessons are given in all the grades; the Normal system of charts and readers being used. In addition to the regular singing classes there is a chorus class devoted to more advanced work.

During the year the pupils who are sufficiently advanced are expected to participate in public recitals, and they also have an opportunity to perform at monthly lectures and rhetorical.

### DEPARTMENT OF INDUSTRIAL EDUCATION.

Training in the Industries has always received attention at TALLADEGA COLLEGE. It is believed that such training strengthens the power of observation, cultivates accuracy and skill, secures the formation of habits of industry and usefulness, and exerts an influence in the development of mind and heart. It is therefore made a part of the regular instruction given by the College. Its advantages are not offered to persons who do not wish to pursue the regular literary course, but desire simply "to learn a trade." Young men are taught Wood-working, Drafting, Forging, Agriculture, and, to some extent, Printing; while the young women receive training in Sewing, Dressmaking, Cooking, Nursing and general housework. A brief description of the treatment of each subject is given below:

#### WOOD-WORKING AND DRAFTING.

The course in wood-working is for pupils from the fifth to the seventh grade inclusive. It is in outline as follows:

Beginning with a series of progressive exercises applied to objects whose use can be readily appreciated and whose construction involves introduction to the tools in general use, the student is taken through a number of exercises in technical woodwork, embracing simple carving and the construction of joints, to the making of finished articles of difficult construction, such as book-cases, tool-chests, etc.

In connection with the work at the bench, the student is taught to make working drawings of the objects he constructs, and also to make tracings and blue prints from his drawings.

The Junior Preparatory class receives instructions in plane geometrical, pattern and perspective drawing and projections.

The College has a work-shop also, where some of the students are employed out of school hours at general repair work for the

Institution, including also painting, glazing and some plumbing. Much practical experience is gained in these ways.

#### FORGING.

The course in Forging is for pupils from the Eighth Grade, and consists of a progressive series of forty-five exercises taken from the course in use at the Massachusetts Institute of Technology, comprising work in both iron and steel.

SLATER SHOP.  
Boys' Industrial Building.

#### AGRICULTURE.

The College farm, gardens and orchards, about 300 acres in all, under competent supervision, and employing pupils through a wide range of classes, give excellent opportunities for practical instruction in this useful industry. Young men of the Middle Preparatory and Second Normal years receive theoretical instruction along the following lines:

Soils, Drainage, Irrigation, Crops—their cultivation, rotation, harvesting and storage, Live Stock, Farm Buildings, Horticulture, Apiculture, Poultry Raising, Farm Economy.

#### PRINTING.

The College maintains a small printing office, adequate for the preparation of much of its job work, and from which during the College year a monthly paper is issued called **THE COLLEGE RECORD**.

#### SEWING AND DRESSMAKING.

The course in Sewing is for Girls from the Third to the Seventh Grade, inclusive, and is substantially as follows:

Use of sewing implements; plain stitching. Button-holes, hemming, gathering, making plain garments. Darning, patching, plain garments. Fancy stitches, ruffles, tucks, children's clothing, cutting by pattern and dressmaking.

#### COOKING.

The Eighth Grade pupils are taught this needful art. They consider Food, its definition and use; the elements which enter into it; its selection as modified by one's age, occupation, physical condition and residence. The principles of cooking are considered under these heads: Boiling, simmering, steaming, stewing, baking, broiling and frying.

#### NURSE TRAINING.

Lessons in Nursing are given to the Junior and Middle Preparatory and First two Normal classes, as follows:

Selection and care of sick room and furniture; nursing apparatus. Food for the sick. Administering medicines. Application of fomentations, poultices, etc. Baths, emergencies, symptoms, bandages, massage.

We have been unable to give theoretical instruction in this course for two years, but we hope for means to continue the work in the future.

#### HOUSEKEEPING.

Most of the general house-work at Foster Hall is performed by student boarders, who render daily service in the dining room, reception rooms, halls, sleeping apartments, kitchen and laundry. The ideas of neatness, order and propriety gained in these ways are of incalculable value.

#### LITERARY SOCIETIES.

The students sustain three Literary organizations: the Ciceronian and Philomathean for young men, and the Vesperian for young women. Besides the training of the societies, public rhetorical exercises are held in the chapel under the direction of the Faculty.

#### LIBRARY AND READING ROOM.

The College Library occupies two rooms on the first floor of SWAYNE HALL, and contains about 4,500 volumes. It is increasing in value, nearly two hundred volumes having been added this year. The Theological Department, also, has in GRAVES HALL a Library of more than 2,000 volumes. Both Libraries are open daily to all students without charge. Files of some of the leading newspapers and magazines are to be found in the College Library.

MODEL BARN.

### LABORATORY AND MUSEUM.

The College possesses apparatus for lecture and class use in Physics and Chemistry, enabling pupils to do Laboratory and other experimental work regularly and profitably.

A valuable collection of specimens has also been secured and classified for reference in the study of Geology and Mineralogy.

### PRIZES.

To stimulate effort for excellence in rhetorical work, the following prizes are offered: First, to successful contestants from the Grammar department, two prizes of free tuition for one year—one for the best declamation and one for the best recitation; second, to successful contestants from the Preparatory and Normal departments, two similar prizes—one for the best oration and one for the best essay; third, one prize of books to the value of eight dollars for the best oration by contestants from the College and Theological departments; fourth, two prizes—one of five dollars and one of ten dollars to successful contestants from all departments of the institution for the best essay on some theme in History, Philosophy or Literature. This prize was established in 1888 by Rev. J. M. Whiton, Ph. D., of New York, and essays prepared for the same must be handed in by 9 o'clock, p. m., of March 31 in each year. For the other prizes a preliminary contest will be held in May, at which time two of each sex will be chosen in the first division above mentioned, two of each sex in the second, and two persons in the third for the final contest, which will take place on Monday of Commencement week in each year.

Recipients of tuition or book prizes will not be allowed to compete a second time in the same division; and the ten-dollar Whiton prize will be awarded but once to the same contestant.

---

### LECTURES.

Monthly, during the school year, alternating with society exercises and social gatherings, lectures on literary and practical subjects are delivered by members of the Faculty, and others from abroad.

---

### ALUMNI MEETING.

By recommendation of a committee appointed the previous year, an Alumni Association was organized at the College Commence-

ment in 1882. This association has an annual meeting. It seeks to perpetuate acquaintance and strengthen fellowship by reunions and correspondence, and it also nominates some of its number to share, under the direction of the Faculty, in the exercises of Commencement.

## GENERAL INFORMATION.

### AIMS.

The advantages and privileges of the Institution are offered to all of either sex, without regard to sect, race, color or nationality.

It aims to furnish a thorough education, under the best methods of instruction, in a range of studies sufficiently wide to secure a substantial preparation for professional duties, teaching, or general business.

It aims to secure the best development of social character, by bringing students of both sexes, from various localities, under the same general discipline, occupying separate buildings, yet constituting one family; associating in school and religious exercises, and under the constant oversight of the teachers.

Above all it claims to be an institution of Christian learning, and its highest object is to develop character. It stands upon the broadest possible basis and is in no respect sectarian.

It is designed to make the Institution, as far as possible, a home for those who attend. Parents and guardians may rest assured that any youth placed under the care of the instructors will be their special charge, and that at all times the rules of good conduct will be enforced.

### MEMBERSHIP.

For membership in the College, applicants must have good moral character, and must present satisfactory testimonials. Students from other schools should bring certificates of honorable dismissal.

No new students who are below the Fifth Grade in their studies, will be received into the boarding halls. The Faculty reserve the right to control the boarding places of all non-resident students and to exercise supervision over them.

Application should be made at least one month before the beginning of the school year.

A few young men and women are received each year, who spend the day working on the farm, in the laundry or boarding hall, and attend the night school. They enjoy the same privileges and are under the same regulations as other boarders. They are received on one month's trial, and if accepted may be required to enter into formal contract with the College as to character of work, length of service and credit. **LABOR CREDITS ARE NOT PAYABLE IN CASH,** but held in trust to meet future College bills. Application blank will be mailed to any one who desires to enter the Institution under such an arrangement. **NO ONE BELOW THE FIFTH GRADE IN STUDIES WILL BE RECEIVED.**

Students should be present on the first day of the school year, and continue, if possible, to the end. A delay of a few days will hinder the student during the entire session.

Students from a distance should arrange their journeys so as not to arrive on the Sabbath. The College aims to be thoroughly Christian, and reverences the Lord's day. Trunks will be transferred to and from the depots free of charge only on the day before the opening and the day after the close of the College year.

Students in regular classes lose their membership when absent one month; while absence without leave may forfeit the pupil's right to membership in the Institution.

Those who have not a fixed purpose to improve their minds, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

Each student should bring a Bible; it is needed for private reading, for the Sunday-school, and for the weekly Bible lessons.

All should be provided with warm clothing. Each young lady should bring water-proof, rubbers and umbrella.

## REGULATIONS.

Students, as far as possible, are taught self-control, appeal being made to their own sense of justice, propriety and honor, and they are understood, on entering, to pledge themselves to obey all the regulations of the Institution.

It is the aim of the Institution to promote good scholarship and Christian character, and the following regulations have been adopted:

Students are not allowed to use intoxicating liquors, or tobacco in any form.

All profanity, playing cards or billiards, and everything of an immoral tendency, are strictly forbidden.

Keeping or using fire-arms on the premises is forbidden.

Cleanliness of rooms and person, good order and fidelity to duty are required.

Students will not throw articles from the windows of any College building, and will deposit ashes, papers, etc., in the appointed places.

Students will be held responsible for damage done by them to College property.

Plain, simple and healthful clothing is to be worn. Only plain or sailor hats and health waists will be allowed. Expensive dress will not be permitted at Commencement, and parents are requested not to furnish it.

A long experience proves that much evil comes from students receiving food from home. Friends will please not send it.

Regular and punctual attendance upon all hours of study and recitation is required.

Students are required to attend punctually the following religious exercises: Church service and Sabbath school on the Sabbath; daily prayers at their boarding places, and in the morning at the chapel or school-room. There are other services at which attendance is optional, although it is earnestly desired, and is very general. These are the services of the Missionary Societies, Mission Sabbath Schools, Class and General Prayer Meetings, the Young Peoples' and Junior Societies of Christian Endeavor, and the Young Men's and Young Women's Christian Associations.

## WANTS.

Without State aid, and relying entirely upon the gifts of the benevolent, the College has many needs. These may be summarized as follows:

1. **APPARATUS AND MUSEUM.**—The College is in need of additions to its Mineralogical Collection and Physical and Chemical Apparatus.

2. **LIBRARY.**—A few class-mates and college friends of the late President have begun an endowment known as the "Yale Library Fund of Talladega College." As yet the fund is small, and its increase is earnestly desired.

3. **STUDENT AID.**—The charges for board and room are made as small as possible, yet many require some help. This aid is extended only to the worthy, to some extent is paid for in work, and perhaps there is no surer or quicker way of doing good than by thus helping some promising student into a life of usefulness.

4. **LARGE SUMS FOR THE INDUSTRIAL DEPARTMENT.**—No instruction among the Freedmen is complete that does not sedulously care for industry. Skilled labor is rare, and the hand as well as the head requires careful training. After moral and hygienic instruction, nothing is more essential than lessons in labor and economy. The College farm needs buildings, implements and fences. The Slater shop should be supplied with additional tools, and the printing office with a small press and new type.

5. **ENDOWED SCHOLARSHIPS.**—The following have been secured and more are greatly desired:

For Theological Students—

The R. R. Graves Scholarship of \$5,000, established in 1882, from the estate of R. R. Graves, Morristown, N. J.

The Stone Scholarship of \$1,000, established in 1883, by Mrs. Nancy M. Stone and Miss Abbie Stone, of Jefferson, Ohio.

The John and Lydia Hawes Wood Scholarship of \$1,000, established in 1886, by Rev. John and Lydia Hawes Wood, of Fitchburg, Mass.

The H. B. Lincoln Scholarship of \$1,000, established in 1886, by H. B. Lincoln, of Worcester, Mass.

For other Students—

The William Belden Scholarship of \$1,000, established in 1882, by William Belden, of New York.

The Wm. C. Luke Memorial Scholarship of \$434.26, established in 1882, by the friends of the late Wm. C. Luke, of Canada.

The E. A. Brown Scholarship of \$809.25, established in 1886, by E. A. Brown, of North Bloomfield, Ohio.

The C. B. Rice Memorial Scholarship of \$380, by friends of the late C. B. Rice, of the Piedmont Congregational Church, Worcester, Mass.

The Barzillai Swift Scholarship of \$3,000, established in 1893, by devise of Mrs. Martha G. Swift, of Mansfield Centre, Conn.

The Ann E. Atkinson Scholarship of \$500, established in 1894, by Mrs. Ann E. Atkinson, of Moline, Ill.

The Eunice M. Swift Trumbull Scholarship of \$500, established in 1895 by devise of Mrs. Trumbull, of Mansfield, Connecticut.

6. **AN ENDOWMENT FOR SALARIES AND GENERAL EXPENSES.** A stable institution must have a constant income, and while the College needs to enlarge, it is in still greater need of invested funds

to meet current expenses. In this a beginning has been made, giving promise of greater things yet to come. By gifts or legacies the following named persons have contributed to the endowment fund:

Mr. Benjamin DeForest, of Hartford, Conn.

Dr. John DeForest, of Watertown, Conn.

Mrs. A. L. Nourse, of Geneseo, Ill.

Mrs. H. T. Judd, of Cedar Falls, Iowa.

Dr. Horatio Bryant, of Independence, Iowa.

Mr. C. B. Erwin, of New Britain, Conn.

Mr. J. Henry Stickney, of Baltimore, Md.

The aggregate of these different gifts, the interest only of which is used year by year, is small when compared with even the present necessities of the College. But future growth will require an enlargement of resources which should be secured by permanent investments. Endowment is an urgent necessity, and while some give themselves to this good work, it is hoped that others will provide the needed means. Gifts and legacies for this purpose can be made to the American Missionary Association, in trust for the College; or if any prefer to help the College directly, this can be done. The College is a chartered institution, and its corporate name is "Talladega College, Talladega, Alabama."

## LOCATION.

This institution, founded and sustained by the American Missionary Association, is at Talladega. Situated among the Appalachian foot hills, on the Southern, the Louisville & Nashville, and the Birmingham & Atlantic Railroads, it is easily accessible from all parts of the State, and is so far removed from the great cotton belt as to escape the more intense heat and malaria of that region. The buildings, shaded by trees, stand on high ground, about half a mile from the village.

In the vicinity of coal fields, surrounded by hills filled with iron, in the midst of a rapidly increasing population, with clear air and pure water, TALLADEGA COLLEGE is not surpassed in advantages of location and beauty of scenery by any institution in the South.

It is the first College open to colored people in the State, and in Alabama alone it has a constituency of 700,000 from which to draw its students. Its fields, its location, and its possibilities are all that could be desired. Hitherto its work has not been small; its need and opportunities were never greater than now.

**ADDRESSES.**

Letters of inquiry upon any subject connected with the College will be gladly received and answered. Financial letters should be addressed to

**E. C. SILSBY,**  
Treasurer.

Letters regarding the Department of Theology to

**REV. G. W. ANDREWS, D. D.,**  
Professor in Theology.
